PROFILE

A motivated third-year Computer Science and Engineering student interested in software development, modern web technologies, UI/UX, and data analytics. Enjoys learning through hands-on projects, internships, hackathons, and practical problem-solving while continuously developing technical and analytical skills.

EDUCATION

Aditya College of Engineering and Technology B.Tech — Computer Science & Engineering · Third Year · CGPA 7.26/10

Intermediate 95.4%

10th Standard 85.6%

TECHNICAL SKILLS

Programming: C · C++ · Java · Python

Database: SQL

Web Technologies: HTML · CSS

Development: Full-Stack Development · Software Development · Web Development · UI/UX Development · Data Analytics

INTERNSHIPS

Elevance Skills Technology — Full-Stack / Web Development Intern

Ongoing — Gaining practical experience in full-stack and web development.

Glow Logistics — Web Development Intern

Ongoing — Gaining practical exposure to web development. · Unpaid / without stipend.

PROJECTS

AI Revenue Recovery — Failed Payment Prioritization System

AI and data analytics-oriented project focused on analyzing failed payment cases and prioritizing them to support effective revenue recovery and collections decisions.

Campus Complaint Portal

Web-based application designed to provide a structured platform for submitting, managing, and tracking campus-related complaints.

Neon Grid Tic-Tac-Toe

Interactive Tic-Tac-Toe game designed with a modern neon-inspired interface and engaging gameplay experience.

BMI Calculator — Flask

Web-based BMI calculator that allows users to enter relevant measurements and obtain their calculated Body Mass Index.

ResumeCraft Studio

Resume-building application designed to help users create and organize professional resume content through a user-friendly interface.

CodeQuest

Programming-oriented project designed around coding practice and interactive problem-solving.

Desktop Tutorial

Desktop-oriented tutorial/application project created to demonstrate practical programming and application-development concepts.

JobGuard — Fake Job & Internship Detection

Project focused on detecting potentially fake job and internship opportunities.

Dayflow HRMS

Human resource management system project shared through the provided repository.

CERTIFICATIONS

LinkedIn Learning — Oracle Java Foundations · LinkedIn Learning — Learning Python · LinkedIn Learning — SQL Essential Training · LinkedIn Learning — HTML and CSS: Creating Forms · Forage — GenAI Powered Data Analytics Job Simulation · Forage — Data Visualisation: Empowering Business with Effective Insights · Adobe University Hackathon — Certificate of Participation

HACKATHONS

- Adobe University Hackathon — Participant
- Odoo Hackathon — Advanced to Round 2

PROFESSIONAL INTERESTS

Full-Stack Development · Software Development · Software Engineering · Web Technologies · UI/UX Development · Problem Solving · Data Analytics

STRENGTHS

Problem Solving · Quick Learning · Adaptability · Creativity · Team Collaboration · Communication · Continuous Learning · Practical Project Development

CURRENT LEARNING

Full-Stack Development · Software Development · Web Technologies · UI/UX Development · Data Analytics · Practical Application Development
